CAREER CONTOUR

I am unwavering, meticulous, and highly competent in the **IT/Software Industry** I have a consistent record of transporting the best results-driven work with a proven ability to implement my work in an organized manner for **11+ years** of my successful career.

My expertise:- **IT/Software Industry – UI Development, React Components, Responsive Design, Agile Methodology, Cross-Browser Compatibility, Frontend Architecture, HTML Templates, Component Library, User Flows, Code Optimization, QA Testing, UX Research, Version Control, Software Development.** I have in-depth knowledge of all the management ethics. I possess effective communication skills and am a team player with strong organizational, Logistical, and problem-solving abilities.

I have great exposure to working with large-scale organizations like **QuestionPro Solutions Pvt. Ltd., Zynq Software Pvt. Ltd.** I have well-versed skills in analysis, problem-solving, and coordination, which make me so successful and dedicated. Strong influencing and negotiation skills coupled with a proven ability to think in and out of the box, generating new solutions.

I have commenced my profession as an **Executive** and risen myself as **Sr. UI Developer** reputed company. I would like to see myself growing with the passing years of hard work and dedication. I have been awarded many accolades for my result-oriented hard work.

Armed with a multitude of competencies and work experiences, I am confident to carry forward any organization's vision & objectives with sufficient ease and dedication to my job responsibility.

EXPERIENCE

Jul'2019 – Till Date | QuestionPro Solutions Pvt. Ltd. | As Sr. UI Developer

Responsibility:-

- Leading UI development efforts for enterprise survey analytics platform with reusable component libraries.
- Collaborating with cross-functional teams in Agile methodology to translate business requirements into user-centric interfaces.
- Conducting user behavior research and implementing findings into optimized user flows and UI design.
- Designing and developing responsive, cross-browser-compatible web applications using React, LESS, and JavaScript.
- Maintaining and refactoring legacy code to improve performance and align with modern development practices.
- Creating test plans and estimating efforts for UI modules to ensure robust quality assurance.
- Integrating APIs and backend services into front-end applications using Postman and Git for version control.

- Actively participating in code reviews and mentoring junior UI developers for quality and consistency.
- Troubleshooting, debugging, and resolving UI/UX issues raised during QA or client UAT phases.
- Collaborating with design teams to maintain consistency in layout, branding, and interactivity across platforms.
- Ensuring pixel-perfect implementation of designs across various screen sizes and resolutions.
- Leading UI development for multiple projects concurrently while adhering to delivery timelines.
- Driving UI innovation by staying updated on the latest trends in frontend technologies and frameworks.
- Building internal libraries to standardize UI components and accelerate development cycles.
- Collaborating with QA teams to identify UI-related bottlenecks and streamline testing processes.
- Coordinating deployment support and release readiness for frontend modules in staging and production environments.
- Documenting UI workflows, design decisions, and code standards for internal team reference and onboarding.
- Ensuring accessibility compliance (WCAG) and optimizing UI for diverse user demographics and devices.
- Engaging in knowledge-sharing sessions and internal demos to showcase feature updates and best practices.
